

**Loti**

I was a bit nervous because I don't know what's coming with that or if id be showing myself in negative ways but I did end up with a good result

We aren't there to judge whoever's story but we are there to you know learn some good lessons for what we have done in the past for the domestic violence program it helps me a lot,

I wish that some other people out there go and take the program, go in and you thought no way oh my goodness I wish I knew this, I wish id come here,

I wish I could have done this course before I came to gaol because sometimes I wish I had taken this course, Id never be in gaol,

I should take these courses so that I will never do this wrong thing I've done If I took this course 100% Id never do this stupid thing that's why I'm here.
